MANN-FILTER mounting hint for C 50 005 and C 50 004/1

To make the mounting of the elements C 50 005 and C 50 004/1 as easy as possible, we added the marking „Top“ on both elements. This „Top“ marking should face upwards respectively towards the driver cabin. Please find below a graphic representation:

Mounting situation on the vehicle and in the housing

Marking on the element
