Information

- ▶ The repair solution is only for the differential of the rear axle.
- ▶ Due to further technical developments of the BMW rear axle differential HAG 215L there are two LuK GearBOX Sets (462 0216 10 / 462 0330 10).
- ▶ The difference of the sets is in the securing of the flanged shaft nut. Either a locking plate (see 462 0330 10) or a self-locking nut is used.
- ▶ Depending on the version of the HAG 215L, a high nut (OE No. 33 12 7 607 158) or flat nut (OE No. 26 11 7 567 770) must be used. These are available from BMW and not part of the LuK GearBOX solution.
- ▶ No repair instructions available from OE.
- ▶ Single parts not available from OES.
