#### **General information**

Remove affected person from the danger area and lay down.

#### After inhalation

If breathing is irregular or stopped, administer artificial respiration. Medical treatment necessary. Do not breathe gas/fumes/vapour/spray. Provide fresh air.

#### After contact with skin

Take off immediately all contaminated clothing and wash it before reuse.

After contact with skin, wash immediately with plenty of water and soap.

### After contact with eyes

Rinse immediately carefully and thoroughly with eye-bath or water. In case of eye irritation consult an ophthalmologist.

### After ingestion

Rinse mouth immediately and drink plenty of water. Induce vomiting when the affected person is not unconscious.
