# HYDRO HV ISO 100

A high viscosity index paraffinic oil, based on selected ingredients, specifically intended for use in hydraulic circuits. Superior performance in keeping the system clean by reducing the formation of deposits. It also demonstrates good filterability, water separation, and quick air release.

## **APPLICATIONS**

This oil is suitable for hydraulic systems, functioning at variable temperatures and high pressures. It can also be used in gear boxes, which require an oil with a high viscosity index and assuring mechanical and chemical stability. Applicable for regulation systems and hydraulic steering.

#### **FEATURES**

Anti-wear and oxidation stability: superior protection. Anti-foam properties: excellent anti-foam properties. Temperature stability: superior viscosity stability.
