

Special synthetic protective sleeving

For universal use – mechanical bite protection

Corrugated sleeving made of specially developed bite-resistant plastic. Protects ignition cables, other cables, vacuum hoses and other similar components from marten bites. Split sleeving available in various dimensions. Can be easily fitted without dismantling cables (simply slide on).

Strongly recommended before using marten repellents – STOP&GO odour remover, item code 07503.

- › 100 % effective
- › High-quality PA 6 plastic
- › High temperature range
- › Easy to fit (split sleeving)
