STARTER MOTORS & ALTERNATORS

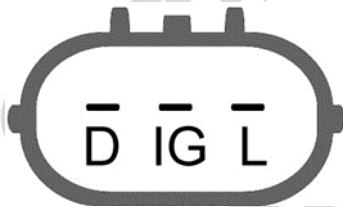

IMPORTANT!

PLEASE READ THE INFORMATION BELOW BEFORE FITTING THIS PART
YOUR WARRANTY MAY BE AFFECTED

This part number is covered under a return to supplier warranty, and must be returned back to the manufacturer for assessment in the event of premature failure. If the manufacturer is satisfied the claim is a genuine warranty and failure has occurred due to a manufacturing defect only then will the alternator be replaced or a Credit raised.

This alternator is commonly misdiagnosed as being faulty. There is common wiring issues which can often lead to the miss-diagnosis and the battery warning light can remain on after a replacement alternator is fitted. Please check for any wiring faults before fitting the replacement alternator. Failure to do so may void your warranty.

If the alternator is returned under warranty and found to be working, a full written test report and supporting video will be provided.

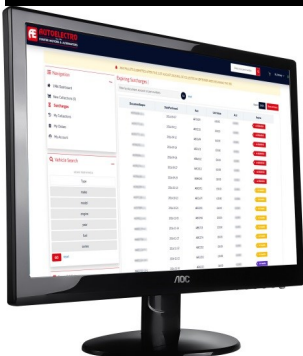

D = Dummy terminal

IG = Ignition Activated

L = Inactive Lamp terminal

Under no circumstances will this part be accepted for credit if fitted.
